

How Mrs. Gomes Stopped Her Son's Habit of Online Gambling?

- A Case Study

Mrs. Gomes a resident of Goa, India. She runs her own catering business and takes care of her family

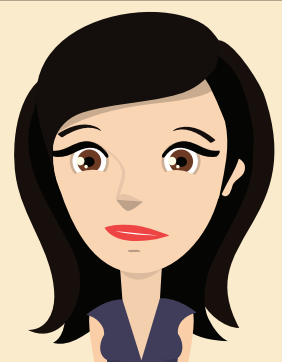

She has a 12 year old son, an internet freak who spends hours on the PC.

Once Mrs. Gomes suddenly spotted some online usage on her credit card. She called up the customer care and came to know that her card was used on online gambling & gaming websites.

Mrs. Gomes tried to figure how did that happen but was unable to do so. One day she read a review on a website about REVE Antivirus parental control feature with live alerts on app.

'She installed the software on her PC and set categories like 'gambling' 'gaming' etc. under surveillance.

Your PC
was used
to browse
www.gaming.com

Throughout the week, Mrs. Gomes was able to know which sites her Son was browsing as she got live alerts on REVE Antivirus mobile app.

Upset Mrs. Gomes spoke to her son explained him about the ill effects of online gaming & gambling. From now onwards, she was able to keep a track of her son's online activities wherever she was.
